Pro Press 100
Porcelain Furnaces

Porcelain firing has never been simpler.

Pro Press 100
The porcelain firing process has never been simpler. This pressing furnace has advanced cycles for Inceram®, Procera®, pressing and porcelain firing. It is the most
versatile furnace available.

Features:

- Calibrate low- or high-fusing porcelains on both furnaces and also press cycles on the Pro Press
- Special cool function allows porcelain to be fired at high temperature, then drop the table for tempering
- Multiple speeds let you increase or decrease the speed in the same program
- Fast-cool your oven by using a vacuum for special porcelain, using low temperature enter settings
- Adjustable vacuum can be set for intermittent or constant operation

Warranty

- **US & Canada:**
  - Effective January 1, 2005
  - Units sold to original purchaser after 12/31/2004, three years or 3,750 muffle hours, parts and labor.
  - Units purchased prior to 12-31-2004, two years on the muffle and thermocouple, one year parts and labor.

- **International:** Two years parts and labor from date of purchase from dealer.
