ECCO - PX119 ECCO Pindex Drill 1pk

ECCO - Pindex Pinsetter Drill 1pk

Pins Burs and Drills

# PX119 - Mfg # T-048

Features:
* Dowell drill bur Strawberry Mecha - Carbide Drills

PIN DRILL - RENFERT

PIN DRILL - RENFERT

Function & Performance

The pin step drill is suitable for use with all pins with a pin head of 2 mm, in particular for our Bi/ Bi-V pins. The Smart-Pin drill is suitable for use with all pins with a pin head of 1.6 mm, especially for our Smart-Pin/ Profix. Both drills are suitable for all pin drilling units with a 3 mm shank chuck.

Advantages
* Very high service life.
* Special blade geometry ensures very low drill resistance.
* Pin drill with maximum rotational symmetry.

CARBIDE BURS - FOREDOM  

CARBIDE BURS - FOREDOM  

Designed for fast trimming of acrylics, and bulk trimming of dies.  

Typhoons have unique structurally aligned points that leave a smoother finish than other types of tungsten carbide burs. Ideal for rapid and aggressive shaping and roughing out work on hard and soft wood, acrylic, die stone, plaster, hard rubber and fiber

**KEYSTONE - 034-1201995 Special bur for soft liners**

KEYSTONE - Keystone Z-Bur Diamond Bur
Typhoon Burs
#034-1201995 - Mfg - # 1201995

Features
The special hollowed, fluted design of keystones z-bur diamond bur is perfect for easy removal of sticky tissue conditioners and pastes commonly used to take denture impressions. The bur also works well in removing most soft liners. Messy removal of materials is eliminated with the z-bur action set at a medium speed (15,000-25,000 rpm). The slower cutting speed reduces burning and melting of the liner. The hollowed design also reduces the clogging of carbide and minimizes flying debris. Once the liner is removed the final preparation of the hard surface can be performed with carbide of choice.

- Reduces burning and melting
- Reduces debris
- Sold individually
