Electro Polishers

Electro polisher Units

BESQUAL - 114037 Electro Polishing Unit 110v
Electro Polisher Unit 110v
Electro polisher Units
# 114037 - Mfg # S700

Electro Polisher is used in making dentures by removing impurities on castings such as partial frame or metal base materials; fast and efficiently through electro-chemistry analysis.

Features:
The triangle stick is made of corrosion-proof titanium material and it makes electrolytes for a long time.
A Built-in circuits makes it simple to operate and current can be easily supplied constantly.
It has a overload protection that isolates vibrations from the unit and main current body.
It has a memory functions that stores (M1 and M2) two (2) frequent combinations of an electrolytic power and time.

Specification:
* Dimension (LxWxH): 8 x 9.5 x 5.25 inches (203 x 242 x 133 mm)
* Tub Dimensions (LxWxH): 4.15 x 4.15 x 3.8 inches (106 x 106 x 97mm)
* Weight: 2.8kg / 6.18 lbs
* Power: 100W

Voltages:
100 ~ 120V/60Hz

US$ 385.50

BESQUAL - 123440 Electro Polishing Unit 220v
Electro Polisher Unit 220v
Electro Polisher Units
# 123440 - Mfg # S700

Electro Polisher is used in making dentures by removing impurities on castings such as partial frame or metal base materials; fast and efficiently through electro-chemistry analysis.

Features:

from the unit and main current body. It has a memory function that stores (M1 and M2) two (2) frequent combinations of an electrolytic power and time.

**Specification:**
* Dimension (LxWxH): 8 x 9.5 x 5.25 inches (203 x 242 x 133 mm)
* Tub Dimensions (LxWxH): 4.15 x 4.15 x 3.8 inches (106 x 106 x 97mm)
* Weight: 2.8kg / 6.18 lbs
* Power: 100W

**Voltages:**
220 ~ 240V/50Hz

**AMERICAN - 101375 Electro-Polisher 1Fr**

**US$ 609.00**

110v

**ECCO - Ceramic Turbine - Electro Polish Unit**

**Compact- Solid-State 10 Amp Unit. Polishes Two Cases At A Time**

**Turbines & Canisters**

# 101375

**Features:**
- Electro Polish Unit Compact
- Solid-state 10 amp unit
- Polishes two cases at a time
- Electropolisher pulidor electrolico
- Made in USA!
- The bowl is made from plastic material

---

**ELTROPOL - ELECTROLYTIC POLISHING UNITS - BEGO**

**ELTROPOL - ELECTROLYTIC POLISHING UNITS - BEGO**

* Automatically calculates polishing time for up to two objects.
* Innovative new heating concept quickly brings the unit up to operating temperature.
* Major time-saving due to simultaneous polishing of two Co-Cr partial dentures.
* New, user-friendly operating panel with display and soft keys.
* Indicator to show when the solution in the polishing bath is in need of change.
* Easy drainage of tank via drain hose.
* Excellent polishing results ensured by uniform movement of the polishing bath.
* Includes a supplementary cathode for objects with a deep palate.
* Uniform polishing effect achieved by automatic current stabilization.

### Electropolishers Solutions

- **NOBILIUM-110739 Electro Polisher Solution 1 ga**
  - **Price**: US$ 75.08
  - **Features**:
    - For electro-polishing chrome-cobalt alloys.
  - **Size**:
    - 1 Gallon (3.79 Liters)

- **CFS - 114911 Electro Polisher Solution 1 ga**
  - **Price**: US$ 32.81
  - **Features**:
    - Haz material
    - Can not be shipped by air
    - Polisher liquid
  - **Size**:
    - 1 Gallon

- **BEGO - 10-52462 Wrly Electrolytic Polis. 2.5Lt**
  - **Price**: US$ 82.32
  - **Features**:
    - Polishing liquid
    - Liquid for electrolytic polishing of cobalt-chrome alloys. Wirolyt is equally suited for Eltropol and polishing units of other manufacturers and enhances their performance and efficiency.
  - **Size**:
    - 1 bottle = 2.5 l
US DENTAL DEPOT is an Authorized BEGO Dealer in US.

**ADS - 117953 Electro-Polish SOLUTION 1 gal**

US$ 74.99

**ADS - Electro-Polish - Gallon Bottle**
**Electro-polishers Solution**
# 117953 - Mfg # E937-8

**Features:**
* Balanced electrolytic solution for final polishing of the cast to the finish you desire.
* Removes microscopic scratches and burs from tissue area of casts.
* Reduces food retention and corrosion in patients mouth.
* Eliminates need for additional mechanical polishing after preliminary finishing procedures.
* Polishing time averages is 6-10 minutes to achieve a smooth, high lustrous shine.

**Quantity:** 1 gallon

US DENTAL DEPOT is an authorized American Dental Supply dealer in US.

**BEGO - 416534 Wirolyt Polish Liquid 1lt**

US$ 41.44

Wirolyt Polishing liquid Liquid for electrolytic polishing of chrome-cobalt alloys. 1 bottle = 1 L #52460

**BEGO Wirolyt Polishing Liquid 1lt**
**ElectroPolisher Solutions**
#416534 Mfg #52460

Liquid for electrolytic polishing of chrome-cobalt alloys.
Wirolyt is equally suitable for use with Eltropol from BEGO and polishing units of other manufacturers and ensures consistently optimal polishing.

1 bottle = 1 L
