Automix Tooth color

TEMPORARY CROWN AND BRIDGE MATERIAL - DEFEND

DEFEND Temporary Crown & Bridge is a bis-acryl composite for chair side provisional restorations.

Features
Available in 5 shades:
* A1, A2, A3.5, B1, and Bleach BL.
* All are delivered in 76g (50Ml)
* Cartridges designed to fit on a 10:1 style automix gun.

DEFEND Temporary Crown and Bridge is fast and accurate, especially when used in conjunction with a quality vinyl polysiloxane impression material such as DEFEND Super Hydrophilic VPS (Monophase).

ACRYTEMP - ZHERMACK

ACRYTEMP - ZHERMACK
Bisacryl self-curing composite resin for temporary C&B preparation

Advantages:
* Practical: the cartridge selfmixing system permits optimal dispensing
* Functional: it develops very low temperatures during polymerization
* Die protection
* Respect of tooth-periodontal relation
* Tooth position preservation
* Resistant to occlusal ad removal forces in masticatory cycles
* Possibility of variation in shape and profile
* Possibility of aesthetic characterization
* Repairable

Characteristics:
* Self-mixing system in 4:1 cartridge
Monomer-free, multifunctional methacrylic esters formulation

- Can be relined
- Can be polished

### ESPE - 108-46130 Espe Protemp II A2 50ml

**ESPE - Protemp II A2 Temporization Material**

**Automix Tooth color**

**# 108-46130**

**Features:**
The PROTEMP II is a A bis-acrylic composite in a hand-mix formula for direct chairside temporary restorations. Protemp II provisional material offers excellent esthetics, tight marginal seal with precision fit and high biocompatibility.

**Product Information:**
Accessories: Protemp II Accessories
Brand: Protemp
Coverage: Short or Long Term
Delivery System: Hand Mix
Material: Bis-acrylic Composite
Product Type: Accessories, Temporization Material

**Benefits:**
- Easy-to-extrude delivery system.
- Offers exceptionally tight marginal seal with precision fit.
- High biocompatibility.
- Suitable for long-term temporary fillings, crowns and bridges due to its high mechanical strength and precision fitting.
- Excellent esthetics due to great color stability, high polishability and the choice of three intensive shades: A1 extra light, A3 light and B3 yellow. The shades can also be mixed with each other to allow better shade matching.

**Indications:**
- For temporary restorations, including: **Multiple-unit bridges.**
- Full and partial crowns.
- Inlays and onlays
DMG - 400686 LuxaFlow Ultra A2 1.5gm. Syringe 2/bx. - US$ 59.18
DMG - LuxaFlow Ultra A2 1.5gm. Syringe 2/bx. - DMG America - #224002
DMG Luxa Flow Ultra A 2 1.5gm. Syringe 2/bx
Automix Tooth Color
# 400686 - Mfg 224002

Features:
Specifically designed for excellent compatibility with Luxatemp Ultra and other bisacryl provisional materials, LuxaFlow Ultra is formulated to affect a completely natural looking result. It is highly polishable for optimum esthetic results and allows you to create more lifelike additions and repairs.
Syringe delivery tip enables precise placement
Excellent flowability in a non-slumping formula
Cure-on-demand provides controlled working time
Radiopaque for easy diagnosis

Specifications:
* Body Viscosity: Flowable
* Shade: A2
* Contains: 2 (1.5 g) syringes

LUXATEM AUTOMIX PLUS - DMG

Features:
Luxatemp? Automix Plus is used to create provisional (temporary) restorations for placement in the patient's mouth during indirect and prosthodontic treatments. The Luxatemp Automix Plus System combines approximately 30% more of the original automix provisional crown and bridge material in a new and improved cartridge delivery system.

**DMG - 400690 Luxatemp Star Ultra A1 76gm**

DMG - Luxatemp Star (Ultra) A1 76gm. Cartridge - #110906

**Features:**
- Luxatemp Ultra is a self-curing composite for the fabrication of temporary crowns and bridges, inlays, onlays, and veneers.
- New standard for flexural strength among provisional materials
- Includes fluorescence to create temporaries that look more like natural teeth in all lighting conditions
- Faster curing, easier cutting, and handling with optimal flow characteristic

**Specifications:**
- Shade: A1
- Contains: 1 (76 g) cartridge and 15 automix tips
- Package Quantity: 1/Pkg
- Size: 76 g

**US$ 258.66**

---

**PROTEMP - ESPE**

**PROTEMP - ESPE**

- The first bis-acrylic composite with a new generation of sophisticated fillers, a result of advances by 3M ESPE in nanotechnology.
- Even stronger and longer lasting than the well-proven Protemp 3 Garant Temporization Material.
- Highly esthetic through natural gloss and fluorescence.
- Easy handling with no polishing necessary.

**AVAILABLE: A2- A3**
