SEPTODONT - 400842 Lignospan Forte Lidocaine 2%  
US$ 47.99

Septodont - Lignospan Forte Lidocaine 2% 1:50 000 with Epi 50/bx.
Septodont - #01-A1050

Features:
Septodont Lignospan Forte Lidocaine 1:50,000 1.7 mL 50/bx
Local dental anesthesia by nerve block or infiltration.

Specifications:
* Packaging: 50/BX
* Lignospan forte should be used when more pronounced hemostasis is required.
* Lignospan when used for infiltration will have an average onset time of less than two minutes and a duration of about 60 minutes. When used for nerve blocks the average onset time is 2 to 4 minutes and will provide about 90 minutes of pulpal anesthesia.

* No-methylparaben formulation to avoid allergic reactions on sensitive patients.
* 100 percent latex-free components to help reduce allergic responses.
* Terminal sterilization of product/cartridges for safe use.
* Mylar label covered glass cartridges to minimize risk of wound in the event of a cartridge breakage.
* Cartridges packed 10 to a blister tray to avoid glass to glass contact, hence reducing breakage.
* Box containing 5 blisters of 10 x 1.7 mL glass cartridges.
SEPTOCAIN W/ EPINEPHRINE 4% - SEP TODONT

Features:
Local dental anesthesia in both simple and complex dental procedure.
Septocaine is indicated for local, infiltrative, or conductive anesthesia in both simple and complex dental procedures.

BOSWORTH - 123319 CORA-CAINE 36-4g Tubes

*Cora-Caine is a pain-relieving dental analgesic adhesive ointment for new or intermediate dentures. Cora-Caine provides immediate relief and a secure fit by soothing tender ridges and relieving the discomfort of sore spots. Acting as a gel-like cushion between the denture and the tissue, Cora-Caine is applied directly onto the denture to provide positive retention and enhance stability.

* Effective relief for 24 hours
* Pink in color
* Contains 16% benzocaine
* Odorless; no aftertaste
* Denture relief and adhesion

US$ 59.26
GUM TOPICAL ANESTHETIC - CROSSTEX
