Handpieces for Clinic
Air Units for Turbines

**ECCO - 118772 CU-I High Spd.Turbine w/Bt 4H**

**ECCO - CU-I High Speed Turbines System**
Air Units for Turbines
# 118772

**Features:**
CU-I High Speed Turbine system with Bottle
* This table control unit for high speed hand piece is ideal for hygienists, dental assistants, dental laboratories.
* Excellent for Zirconia and Alumina detailed refrigerated work.
* Can use any Borden handpiece with no extra connections.
* Changing the Borden connector, can be used almost any air handpiece in the market including Laboratory handpieces.

**Includes:**
* Borden (4 holes) connector
* Air pressure regulator
* Speed control
* Speed control (air to the handpiece)
* Pedal On Off
* Spray selector
* Three way syringe with quick changer of tip
* Pressure gauge
* Standard air Connector and 3 ft of high pressure hose

**Indications:**
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur correctly installed
* Do not exceed 250°F (121°C) when autoclaving and a maximum of 3 min.

US$ 102.90

---

**ECCO - 118821 CU-I High Spd.Turbine w/Bt 4H**

**ECCO - CU-I High Speed Turbine System**
Air Units for Turbines
# 118821

**Features:**
* Two handpiece control with coolant
* Individual handpiece air pressure adjustments
* Water coolant flow control and on/off bottle pressure release
* Integrated clean water system w/1 liter bottle
* Easy to read pressure gauge
* Integrated high pressure regulator
* Twin-pedal heavy duty independent handpiece foot control
* Asepsis European style tubing

US$ 102.90

**NSK - 379-NBBYL Contra Head BBY Latch Type**

- **NSK - Contrahead Only BBY Ball**
- **Contraheads For Contrangles**
  - # 379-NBBYL - Mfg # C210

  **Features:**
  - Latch Type: 1.1 Ball Bearing
  - Solid S NSK
  - Contra head Only BBY Latch Type 1.1 Ball Bearing
  - 40000 Rpm
  - Does not include irrigation clip contrahead
  - Replacement Parts

  **ORIGINAL NSK - MADE IN JAPAN - SEALED BOX - FACTORY WARRANTY**

**NSK - 379-NACY Contra Head NAC Latch Type**

- **NSK - NAC Contrahead Only**
- **Contraheads For Contrangles**
  - # 379-NACY - Mfg # C032002 NAC

  **Features:**
  - Latch type 1:1
  - Not bearings
  - Compatible with NSK contrangles

  **Specifications:**
  - Soli Cartridge type
  - For CA burs 2.35
  - Max Speed 30,000 min-1

  **ORIGINAL NSK - MADE IN JAPAN - SEALED BOX - FACTORY WARRANTY**

**ECCO - 118781 ContraHead ECCO-END-L Rec**

- **ECCO - Contrahead for Endo**
- **Contraheads For Contrangles**
  - # 118781 - Mfg: # CX235CH-05-2C

  **Features:**
  - Contrahead For ENDO LATCH CX235CH-05-2C only RECIPROCATING movements - For RA ENGINE FILES - for ECCO Contrangles

  **Descriptions:**
  - Head of contra angle
* Reciprocating rotate head
  * max. 40,000 rpm
  * Only Latch Type Ball bearing for ECCO Contrangles all types

Indications:
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur correctly installed
* Do not exceed 250°F (121°C) when autoclaving and a maximum of 3 min.

---

Electric Increaser 1:5 HP

MONT BLANC - 113491 1:5 Electric HighSpeed HP w/FO

MONTBLANC - 1:5 Increaser Electric HighSpeed Dental
Electric Handpieces
# 113491 - Mfg # AHP-72MBFO-XL

Feature
1:5 Increaser Electric HighSpeed Dental Handpiece with Fiber Optic.
* The 1:5 increaser handpiece is excellent for all high speed general dental applications and sectioning teeth.
* With water flow of up to 80 ml/min, the integrated spray allows efficient cooling of the bur, tooth and the contra angle itself, reducing risks of overheating and avoiding excessive wear and tear to the gear systems.

Descriptions:
* E-Type conection
* 4 Sprays
* Ceramic Bearings
Normally purchased with ASEPTICO-5000

US$ 1,757.28

**ASEPTICO- 013-AHP-71Ti ASEPTICO Surgical Handp 1:5x**

US$ 778.68

**ASEPTICO - 1:5x High Speed Optical Contra Angle**

**Electric Increaser 1.5 HP**

# 013-AHP-71 - Mfg # AHP-71Ti-X

**Feature:**
The 1:5 Highspeed Contra Angle Dental Handpiece is ideal for all general dental highspeed needs, including caries removal and crown prep.

The 1:5 High Speed Contra Angle Dental Handpiece allows your implant and surgical motor to be used for traditional dental applications while providing more torque than a traditional air-driven dental handpiece. It performs restorations, caries removal, and sectioning as well as traditional applications. The contra angle is highspeed, rated at 1,500-200,000 rpm, and its titanium construction ensures quality and durability.

**Description:**
- Durable titanium case
- 1,500-200,000 rpm
- Ideal for all general dental highspeed needs including caries removal and crown prep
- Also can be used for canal access and sectioning teeth

**Indications:**
- **Do not** operate or run a handpiece without a bur correctly installed
* Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.
* Do not use automatic lubricators

**MEDIDENTA - 416536 Electric 1:5 incr angle/ Non-Optic**

**ECCO - 122924 ENDO Contr.1:1 Reciprocating Ra**

**ECCO - ENDO Reciprocating Right and Left Contra Angle**

**Endodontic Contrangles**

# 122924 - Mfg # CX235

**Features:**
Reciprocating For Periodontics
Latch Type Endodontic

**Color:** Blue

**Indications:**
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur correctly installed
* Do not exceed 250°F (121°C) when autoclaving and a maximum of 3 min.

**US$ 155.35**

---

**ENDODONTIC CONTRANGLES - NSK**

**ENDODONTIC CONTRANGLES - NSK**

**Features:**
The speed of all Endodontic low speed handpieces is determined by the speed of the micromotor to which they are connected. Micromotors can vary in speed ranges. Micromotor speed should be confirmed before selecting a reduction handpiece.

**ORIGINAL NSK - MADE IN JAPAN - SEALED BOX - ( FACTORY WARRANTY )**

COXO - 118793 Redu Contr Endo-P-10:1 Rec Hnd  
COXO - End 10:1 Reduction Wrench Contra Angle  
Endodontic Contrangles  
# 118793 - Mfg CX235 C4-2  

Features:
- Push button Reciprocating for Regular Handfiles 10:1 Ratio for Endontic Treatment CX235CB-4 + SCH06-B10-1C.  
- Handpieces surgical implants for low speed handpieces E-type.  
- Contra angle for endodontic treatment  
- For hand use files  
- 90 Reciprocating rotating rotate head  
- Max.4000rpm  

Indications:
- Do not use automatic lubricators  
- Do not operate or run a handpiece without a bur correctly installed  
- Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.  

US$ 154.00

ECCO - 116166 Redu Contrangle Endo 16:1 Latc  
ECCO-END-16-L Endodontic Reduction Contrangle  
Endodontic Contrangles  
# 116166 - Mfg # CX235  

Features:
- Can be 135 degree centigrade sterilized  
- For endodontic treatment  
- External water spray  
- Wide Range of Gear Ratio  
- Ergonomic Comfort Grip  
- Available for various E-type motors in accordance with ISO standard  

Technical data:
- Ratio of transmission: 16:1  
- Chuck type: wrench  
- Bur applicable: 2.35mm  
- Reduction?16:1 Mini head  
- Hole diameter: for CA burs ?2.35  
- Max torque:50Ncm  
- Max speed:40,000rpm  
- Noise: less than 70dB  

Indications:
- Do not use automatic lubricators  
- Do not operate or run a handpiece without a bur correctly installed  
- Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.

Handpieces (Midwest) 4 Holes
# 416539 - Mfg # TT1200

Overview:
The innovative design and the highest quality parts, including ceramic bearings and titanium coating gives us the ability to back this handpiece for 1 year, giving you added peace of mind. The unique chuck design is capable of holding up to 10lbs (over 40N) eliminating the risk of bur slippage ensuring patient and doctor safety.

And the patented impeller design allows the air to be guided by a special asymmetrical impeller and grooved backcap to speed up the exhaust airflow and reduce vibration. This results in increased torque and constant speed, even under heavy load conditions.

Features
Turbo Torque Patented Technology: The patented design of airflow circulation allows the air to be guided by a special asymmetrical impeller and grooved backcap to speed up the exhaust airflow and reduce turbulence. This results in increased torque and constant speed, even under heavy load conditions.
* 1 > Air enters impeller
* 2 > Asymmetrical impeller guiding the airflow
* 3 > Special design of the back cap to guide the airflow
* 4 > Air quickly exits through exhaust port

High Retention Chuck: The patented chuck design works to grip the bur tighter. Capable of holding up to 10lbs (over 40N) eliminating the risk of bur slippage ensuring patient and doctor safety.

20 Watts of Power: Offering an impressive 20 watts of power allowing you to cut smoothly and confidently without any bog down.

Three Port Water Spray: Ensuring that the bur and working site are properly cooled during the procedure.

Ceramic Bearings: Ceramic Bearings to extend the life of your handpiece.
Warranty: This handpiece offers a 1 year warranty.

Overview:
The innovative design and the highest quality parts, including ceramic bearings and titanium coating gives us the ability to back this handpiece for 1 year, giving you added peace of mind. The unique chuck design is capable of holding up to 10lbs (over 40N) eliminating the risk of bur slippage ensuring patient and doctor safety.

And the patented impeller design allows the air to be guided by a special asymmetrical impeller and grooved back cap to speed up the exhaust airflow and reduce vibration. This results in increased torque and constant speed, even under heavy load conditions.

Features
Turbo Torque Patented Technology: The patented design of airflow circulation allows the air to be guided by a special asymmetrical impeller and grooved back cap to speed up the exhaust airflow and reduce turbulence. This results in increased torque and constant speed, even under heavy load conditions.
* 1 > Air enters impeller
* 2 > Asymmetrical impeller guiding the airflow
* 3 > Special design of the back cap to guide the airflow
* 4 > Air quickly exits through exhaust port

High Retention Chuck: The patented chuck design works to grip the bur tighter. Capable of holding up to 10lbs (over 40N) eliminating the risk of bur slippage ensuring patient and doctor safety.

20 Watts of Power: Offering an impressive 20 watts of power allowing you to cut smoothly and confidently without any bog down.

Three Port Water Spray: Ensuring that the bur and working site are properly cooled during the procedure.

Ceramic Bearings: Ceramic Bearings to extend
Handpieces for Clinic

ECCO - 114296 LS-2-2H Higienist Kit

US$ 92.40

Ecco-LS-2-2H Low Speed Micromotor
Hygienists Handpieces
# 114296

Features:
Low Speed Micromotor + Handpiece 2 Holes midwest - E-Type
* The straight handpiece is designed to accept disposable prophy-angles or burs.
* E-type air micromotor
* 2 Holes
* Low vibration
* 3 years full warranty
* The LS Low Speed are highly durable and fully autoclavable at 135C max.
* Low vibration 1:1 “E” type.
* Fully autoclavable.

Indications:
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur correctly installed
* Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.

Made in USA
### ECCO - 115513 LS-2-4H Higienist Kit PB

**US$ 88.72**

**ECCO - LS-2-4H Low Speed Higienist Kit**  
**Hygienists Handpieces**  
# 115513 - Mfg # CX235

**Features**  
The ECCO-LS-2-4H Handpiece features a Straight nose and 4 Hole Micromotor. The LS-2-4H is the perfect piece for Hygienist and is suitable for operative and surgical purposes.  
* Connects with Doriot contrangle and prophy angle & E-type handpieces & contrangles

**Advantages:**  
* Works with all prophy angles ( disposables )  
* Works with contrangles U-type  
* Works with regular HP burs.  
* Excellent for Hygienists  
* Extremely long lasting performance  
* Straight nose, can be exchanged for regular contrangle E-type  
* Superior torque makes it also perfect for Operative purposes and surgery  
* Autoclavable

**Contains:**  
* 1 Air micromotor ( midwest )  
* 1:1 Straight Nose hand piece (HP)  
* 1 year full warranty  
* We also provide in house service

**Indications:**  
* Do not use automatic lubricators  
* Do not operate or run a handpiece without a bur correctly installed  
* Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.
**MEDIDENTA - 416551 MEDITORQUE ELITE STRAIGHT 25K each**

US$ 499.00

**Overview:**

Meditorque Elite Lowspeed Line

The Meditorque Elite lowspeed line is a new addition to the Medidenta catalog that can provide your office with consistent power and performance over a longer period of time.

Our goal is to provide reliable, everyday, workhorse handpieces capable of excelling at any task you require for your procedure.

**Features:**

- **25% More Power:** Capable of delivering a smooth and powerful 25,000 rpm, the new Meditorque Elite Straight handpiece offers more power than its predecessor.

- **360 Degree Swivel:** Maximizing comfort during use, the new Meditorque Elite Straight features an ergonomic body with a full 360° swivel reducing drag from the air line.

- **Titanium Finish:** The titanium finished shells are capable of withstanding the high demand of your office, preventing corrosion and scratches for long lasting operation.

- **1 Year Warranty:** Thanks to its strong and reliable build quality, we are able to back this handpiece with a 1 Year Warranty.

**Technical Details:**

- 25,000 RPM @ 42PSI
- Titanium Finish
- Forward + Reverse
- 4-Hole Connection
- 1 Year Warranty

**Quantity:** 1 piece

LED Handpieces for Clinic
LED High Speed Hand Pieces

**LED HANDPIECE 636 CP - KAVO TYPE**

**LED HIGH SPEED HAND PIECES - KAVO TYPE**

- Using stainless steel ball bearing system, (Tabby hanpiece 636C series)
- Safe to operate.
- Anti-corrosion, longer life
- Low noise, without shake. (Less than 60DB)
- Three way spray handpiece with good cooling effect by san-shape spray
- Strong clamping force(35N)
- Air pressure 2.1BAR/32PSI, strong force power 13W, having super cutting force
- Speed:30000~350000RPM(MAX HEAD) 35000~420000(STD HEAD)
- Various choose as for each model, four hole or two hole, standard head or max head are both ok.
- Perfect angle combination head 95 degree/handle 21 degree 10.
- Anti-retraction system.
- Excellent appearance, streamline design, easy to operate, safe to clean.
- LED generator high speed handpiece can self-illumination without any power.

Available in 2 holes or 4 holes

#### MEDIDENTA - 416555 FORESIGHT SGL MINIHD - 4H

**MEDIDENTA - FORESIGHT SGL MINIHEAD LED - Handpiece - 4holes - # FS-SSMEDIDENTA - FORESIGHT SGL MINI HEAD LED - Handpiece - 4holes**

**LED High Speed Hand Pieces**

# 416555 - Mfg # FS-MS

**Overview:**

What Is Self Generating LED
The micro generator embedded inside the handpiece activates a bright LED light when air flows through the handpiece. The direct LED light is located on the face of the handpiece, allowing the light to cover a large area.
The micro generator incorporated inside the handpiece activates a brilliant LED light when air flows through the handpiece. You no longer have to deal with the inconvenience of fiber optic systems.

There is no specialized fiber optic tubing needed, no burnt out bulbs, no glass rod deterioration, no electrical source. You will only have simple and convenient LED illumination with optics pointed directly at your procedure site. A titanium coated shell provides scratch, stain, and corrosion resistance for a long lasting and durable body.

Features:
Built-In Mini Generator: The micro generator incorporated inside the handpiece activates a brilliant LED light when air flows through the handpiece. You no longer have to deal with the inconvenience of fiber optic systems.

Direct LED Illumination: With bright LED optics pointed directly into your procedure site, the Foresight will illuminate the working area better than any headlamp or loupe on the market.

20 Watts of Power: Capable of extreme power, delivering over 20 watts of constant torque for consistent cutting power even under the heavy load conditions. The patented chuck design works to grip the bur tighter as the RPMs increase to minimize the risk of bur slippage and ensure patient safety.

Titanium Coated Stainless Steel: This titanium coated stainless steel shell provides scratch, stain, and corrosion resistance for durability and longevity.

Ceramic Bearings: Ceramic Bearings to extend the life of your handpiece.

**Z4 - 112374-1 Z4 Led HP TORQUE E-Gen. 4H**

ECCO-Z4 PLUS Led Handpiece E-Generator 6 Sprays 4 Holes
Led High Speed Handpieces
# 112374-1 - Mfg # CX207-F-TP+

US$ 288.75

**Features:**
* Z4 E-Generator LED Dental handpiece brings light to dental offices that have been using regular handpieces. It has an internal air driven power motor which supplies LED lighting on the tip of the handpiece. Almost eliminates the need of external light for a proper view.
* 4 Holes
* The truly innovative design of this handpiece incorporates Z4 powered by its own miniature built-in generator. This cutting edge technology allows the operator to have a clear illuminated operative field without the electrical requirement of current power optic systems. The Z4 is brighter with a larger light pattern than the traditional power optic systems
* Innovative Simplicity The drive air rotates the miniature generator. The electricity generated illuminates the Z4 that is optimally positioned on the face of the handpiece, providing daylight bright illumination. It is so efficient there is no loss of air pressure or torque, and the three coolant water ports provide the desired coolant spray pattern.

**Technical Specifications:**
* Operating air pressure: 0.25-0.3Mpa (0.3MPa preferred)
* Air consumption: 55L/min
* Speed of generator: 25,000-30,000 R.P.M
* 420,000 r.p.m for standard head
**Handpieces for Clinic**

### LED High Speed Hand Pieces

- **Advantage:**
  - Ceramic Bearings: Quieter and longer life
  - Push button
  - Noise level: Less than 68 Db
  - Chuck power: 20-45N
  - Net weight: 88 g

- **USES REGULAR PO14C Turbine Canisters**
  - Hand Lubricate, Do not use automatic lubricating machines that overflow generator with oil.

### LED Low Speed Hand Pieces

**ECCO - 115648 ECCO-GEN-CA Contrangle 1:1**

**Features:**
- LED Light Generator
- Inner Channel Irrigation Push Button

**Description:**
- 1:1 Direct Drive.
- Irrigation Inner Channel
- Does not require the use of Fiber Optic
- Does not require the use of a special Micro Motor
- Compatible with electric and pneumatic Micro Motors
- Just by the Contrangle and have working light at your work station

**Technical Specifications:**
- Protection Type against Electrical shock: Class II
- Temperature Range: 40 C --+ 135 C
- Noise: 70db
- Max Speed: 25,000 rpm
- Direct Drive: 1:1
- LED Light: Yes

**FOR INTERNAL IRRIGATION should be connected to an Internal Irrigation Micromotor**

**Indications:**
- US$ 246.75

---

CATALOG 6510 - oct/09/2018
**Handpieces for Clinic**

NSK - Type EX-203-B2 Set

Low Speed Kits

# 102011 - Mfg # EX203 B2 SET

The NSK air motors are very durable and are autoclavable at a maximum of 135°C. Connects directly to all types of pieces of hand low-speed type and ISO. For users of smaller budget, the ex-203, which does not have the retract valve but with other large capacities, can be a good choice.

**Features:**

- Rotation control in forward and reverse
- Attach to hand-pieces of quick release; suitable for the connected all the brands of accessories of pieces of hand of ISO type-E.
- The motors tires NSK are autoclavable.

**Set Includes:**

Air Motor EX-203 straight hand piece ex-VI

Contrangulo NAC-E

**Technical data:**

Maximum speed: 22,000 RPM B2: Borden 2 holes

**Indications:**

- **Do not** use automatic lubricators
- **Do not** operate or run a handpiece without a bur correctly installed
- **Do not** exceed 250°F (121°C) when autoclaving and a maximum of 3 min.
NSK- 115620 EX-203 Low Speed 4H Kit 3  US$ 140.33
pcs

NSK - Type EX-203-M4 Set
Low Speed Kits
# 115620

Features:
Set Low Speed Kit with Air Motor 4 Holes
The NSK EX-203 motor has unparalleled value in the
dental industry. What you will get with this handpiece
motor is quiet, low vibration, and long lasting
operation.
* For export only

Contains:
* E-type air motor
* A straight nose contrangle
* Right angle sheath with latch head

Advantages:
* Precise technology, Steady, no vibration while
revolving, offering a steady
operation.
* Exquisite appearance, Modern clipper-built
designation, with elegant and attractive appearance.
* Durable and autoclavable, Durable, fastidiously
request for designation, technology and material.
* Easy to assemble.
* Intended for dental clinical treatment and
prevention.
* Suitable for any E-type headpiece accords with ISO
standard.
* Suitable for both steam and chemical autoclave

Specifications:
* Max speed: 800-20,000 Rpm Adjustable
* Hole Connection: 4 Hole
* Autoclavable: Yes
* Direct Drive: 1:1

Indications:
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur
correctly installed
* Do not exceed 250F (121 C) when autoclaving and
a maximum of 3 min.

ORIGINAL - NEVER OPENED - FACTORY SEALED
MADE IN CHINA
**NSK - 116612 FX-205 Low Speed 2H Kit 3**  
US$ 614.25 pcs

NSK - FX-205-B2 Low Speed 2H KIT  
Low Speed Kits  
# 116612 - Mfg # Y100-2668

**Features:**  
FX205 air motor is approximately 25 percent shorter and 20 percent lighter than previous models. Its shorter, lighter air motor gives optimal balance, reducing stress and fatigue during treatments and enabling you to focus on the procedure at hand.

**Contents:**  
* Air Motor (FX205)  
* Straight handpiece (FX65)  
* Contra-angle handpiece (FX23)

**Indications:**  
* Do not use automatic lubricators  
* Do not operate or run a handpiece without a bur correctly installed  
* Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.

**Meditorque Elite Lowspeed Line**

The Meditorque Elite lowspeed line is a new addition to the Medidenta catalog that can provide your office with consistent power and performance over a longer period of time.

Our goal is to provide reliable, everyday, workhorse handpieces capable of excelling at any task you require for your procedure.

Titanium Finish: The titanium finished shells are capable of withstanding the high demand of your office, preventing corrosion and scratches for long lasting operation.

1 Year Warranty: Thanks to its strong and reliable build quality, we are able to back this handpiece with a 1 Year Warranty.
25% More Power: Capable of delivering a smooth and powerful 25,000 rpm, the new Meditorque Elite lowspeed line offers more power than most ‘E’ type motors on the market.

**Features:**
KAVO - Universal Oil Spray 500ml - Each - handpiece
lubricating oil spray for handpieces
* The KaVo Spray system helps your daily surgery
routine without environmental damage. Your valuable
and precision made KaVo instruments and handpiece
attachments are simultaneously cared for and protected.
* The spray lubricant and cleanser are propelled to
exactly the right areas where lubrication and cleaning are
regularly required.
* This is achieved without any CFCs
(chlorofluorocarbons).
* Proper maintenance with KaVo Spray saves time,
money and hassle.

**In addition, the KaVo Spray intensive care system
also offers:**
Now only one type of spray for all KaVo DMI instruments!
Turbines, airmotors, shanks and heads. All perfectly
cleaned and lubricated, with the KaVo Spray formula
* The two re-usable spray nozzles (Multiflex and Quick)
can be interchanged on one spray can. This is not only
easy on the purse strings but environmentally friendly.
No unnecessary discarding of the spray nozzles and
caps

**Not include Applicator**

**ECCO - 101554 16.1 Reduc Contr. Compl Latch**

ECCO - Red-16 Reduction Contrangle 16:1 Complete Reduction Implant Contrangle
# 101554 - Mfg # CX235C6-9

**Features:**
For implants 45 Newtons Torque, low speed handpieces E-Type.

**Type:** Latch Type

**Reduction ratio:** 16:1

**Indications:**
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur correctly installed
* Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.

2 years Manufacture Warranty

Made in China

ECCO - 115060 20.1 Reduc Contr. Compl Latch

ECCO RED-20L Latch Type
Reduction Contrangle
# 115060

Specification:
* 20:1 Complete
* Latch Type
* For implants
* 45 Newtons Torque

Features:
* Can be 135 degree centigrade sterilized
* Contra angle for Implant
* Wide Range of Gear Ratio
* Ergonomic Comfort Grip
* Available for various E-type motors in accordance with ISO standard

Technical data:
* Ratio of transmission: 20:1
* Chuck type: wrench
* Bur applicable: 2.35mm
* Noise: less than 70dB
* Max speed: 40,000rpm
* Max torque: 50Ncm

Indications:
* Do not use automatic lubricators
* Do not operate or run a handpiece without a bur correctly installed
* Do not exceed 250F (121 C) when autoclaving and a maximum of 3 min.

**NSK-115595 1:1 20 Angled Micro Surgery HP**

**Features:**
- Micro Surgery 1:1 20 Degree Angled Handpiece
- Designed specifically for use in micro-surgery and ENT surgery, these hand pieces are built to operate with the ultimate precision of rotational axis and minimal vibration in high speed range.
- NSK Micro-Surgery hand pieces help making more precise and safer operations.
- With built-in NSK patented Clean Head System, the hand piece is protected from internal contamination, and thus the life is substantially extended. All NSK hand pieces are repeatedly Autoclavable up to 135 degrees.

**US$ 777.00**
### Technical Specifications:
- Surgical Bur Size: 2.35
- Chuck type: Twist Chuck
- Max Speed: 40,000 min\(^{-1}\)
- Handpiece: 20 Angled Hand piece
- Direct Drive: 1:1
- NSK Model: SGA-ES

### NSK - 115596 1:1 Straight Micro Surgery HP

- **Specifications**
  - Head: Straight Handpieces
  - Gear Ratio: 1:1 Direct Drive
  - For: For surgical burs (.35)
  - Max Speed: 40,000 min\(^{-1}\)

- **Price**: US$ 861.00

### NSK - 123391 1:2 20Angled Micro Surgery HP

- **Specifications**
  - Head: 20 Angle Handpieces
  - Gear Ratio: 1:2 Increasing
  - For: For surgical burs (.35)
  - Max Speed: 80,000 min\(^{-1}\)

- **Price**: US$ 880.00

### NSK - 115597 3:1 Surgical Saw HP

- **Specifications**
  - Head: 20 Angle Handpieces
  - Gear Ratio: 3:1 Increasing
  - For: For surgical burs (.35)
  - Max Speed: 40,000 min\(^{-1}\)

- **Price**: US$ 1,247.40
Features:
With Externam Spray Nozzel
* NSK Micro Saw Handpieces designed for osteotomy in the treatment of oral surgery, three cutting motion type - 1.8MM back and forth movement, 17 left and right movement and 3 radial motion - and thus make easier and more efficient osteotomy.
* All NSK Micro Saw Handpieces are the use of ultra-thin blade, so that you can minimize During surgical operation, the phenomenon of bone damage.

Technical Specifications:
* Action: 1.8mm Vertical Reciprocating Action
* Spray Nozzle : External
* Max Speed: 12,600 Strokes Per Minute
* Deceleration : 3:1
* NSK Model : SGR2-E

MEDIDENTA - 416538 AIR FREE 45
Surgical HP - 4H

MEDIDENTA - AIR FREE 45 Surgical Handpiece - 4holes - # AF45
MEDIDENTA - AIR FREE 45° Surgical Handpiece - 4holes
Surgical Handpieces
# 416538 - Mfg # AF45

Overview:
The Air Free 45° handpiece features superior torque for smooth cutting without bog down, a long lasting titanium coated stainless steel shell and also offers practitioners the capability of working with a completely air-free oral cavity. Ideal for mesioangular impactions and third molar extractions.

Features
20 Watts of Power: Capable of extreme power, delivering 20 watts of constant torque for consistent cutting power even under the heavy load conditions. The patented chuck design works to grip the bur tighter as the RPMs increase to minimize the risk of bur slippage and ensure patient safety.

Air Free Oral Cavity: All air is vented through pilot holes located on the back-end. This helps provide an air free oral cavity along with great turbine ventilation for great power.

Titanium Coated Stainless Steel: The titanium finished shells are capable of withstanding the high demand of your office, preventing corrosion and scratches for long lastung operation.

Ceramic Bearings: Ceramic Bearings to extend

US$ 590.00

Surgical Handpieces

the life of your handpiece.

Warranty: This handpiece offers a 1 year warranty.

Technical Details:

MEDIDEN TA - 416537 AIR FREE 90 Surgical HP - 4H
MEDIDEN TA - AIR FREE 90 Surgical Handpiece - 4holes - # AF90SG
MEDIDEN TA - AIR FREE 90º Surgical Handpiece - 4holes
MEDIDEN TA - 416537 - Mfg # AF90SG

Overview:
The first 90° surgical highspeed to accommodate the many surgical procedures that do not require a 45° angle, for comfort and efficiency.

Unlike most conventional surgical highspeeds, no air is vented from the head of the handpiece. This eliminates the risk of subcutaneous air emphysema. The Air free oral cavity makes for safer osseous surgery & extractions.

Oral Surgery
The surgical length allows for many surgical applications such as vertical impactions. The Air-Free oral cavity allows for safe surgical procedures.

Periodontics
Eliminate the risk of surgical emphysema with an air free highspeed. No need to spend large sums of money on electric highspeeds. nique Physical Vapor Deposition coating provides greater protection against abrasive wear. It also reduces the tendency of materials to adhere to.

Features
20 Watts of Power: Capable of extreme power, delivering 20 watts of constant torque for consistent cutting power even under the heavy load conditions. The patented chuck design works to grip the bur tighter as the RPMs.

US$ 549.00
increase to minimize the risk of bur slippage and ensure patient safety.

ECCO - Surgery Handpiece Operation 20
Straight Head
Surgical Handpieces
# 115866 - Mfg # CX235-2S

Features:
Surgery Handpiece Surgical Operation 20
Straight Head
SUR-20 degrees Angled slow speed surgical handpiece.
Precision design, transmission gear is made of high strength alloy steel, perfect stable and reliable performance. This product have smooth rotation, low noise and a long life. Can be applied in apical resection, osteotomy and aeration basal bone remodeling

Description:
* Handpiece 20 angled
* Push Button E-type connection
* 1:1 Speed
* For surgical burs and cutters with shank 2.35 mm
* External spray, maximum motor speed. 40000 rev / min.
